

ATNP WG/2-WP/39  
11/10/94

AERONAUTICAL TELECOMMUNICATIONS NETWORK PANEL

WORKING GROUP 2 FIRST MEETING

San Diego 24 - 28 October 1994

**Agenda Item 2.1 : Review of Working Group 2 Terms of Reference**

**Review of ATNP Working Group 2 Terms of Reference as  
defined at ATNP/1**

**(Presented By Akhil Sharma)**

**Working Paper**

## 1. Introduction

The first meeting of the ATN Panel defined the terms of reference for the ATN Internet Working Group (WG2). For ease of reference these are reproduced below.

### 7.3.3 *ATN Internet Working Group*

7.3.3.1 *The ATN Internet Working Group (WG/2) would conduct the following activities, in a manner consistent with the working strategy defined above:*

- a) *development of draft SARPs and guidance material for the ATN Internet (i.e. the network and transport layers of the ATN) to support both fixed and mobile aeronautical data communications;*
- b) *development of draft SARPs and guidance material for the ATN Internet management features, including the definition of lower layers (up through transport) managed objects (already contained in the ATN Manual), within the framework of the systems management concepts defined by the Working Group 1;*
- c) *development of draft SARPs and guidance material for the ATN Internet security features within the framework of the security concepts defined by the Working Group 1;*
- d) *over-all assessment of the on-going activities supporting the validation of the ATN Manual, second edition (i.e. ATN Internet draft SARPs; and*
- e) *development and validation of draft SARPs for encoding rules and data compression functions, where appropriate.*

## 2. Proposal

The meeting is invited to note the above, seek clarification where required in order to identify the deliverables that the WG will need to develop. The WG should note that, in addition to providing deliverables to ATNP/2, it will also be necessary to identify those deliverables that will need to be made available to ATNP WGs 1 & 3.
