

**Aeronautical Telecommunication Network Panel  
Working Group /3  
Alexandria, 7-15 October 1996  
ATN  
International Organization for Standardization (ISO)  
Activity**

**(Presented by Steve Van Trees)**

**Abstract**

**ATN ISO Standards are listed**

## **1. Introduction**

The ATN is an Open Systems Interconnection (OSI) network. ATN personnel have been involved in the ISO standardization process.

## **2.ISO Standards**

ACSE Service, 2nd Edition  
ACSE Protocol, 2nd Edition  
ACSE Connectionless Protocol, 2nd Edition

ISO 8649/DAM1 ACSE Service (Fast Associate)  
ISO 8649/DAM2 ACSE Service (Connectionless Authentication)  
ISO 8650-1/DAM1 ACSE Protocol (Fast Associate)  
ISO 8650-1/DAM2 ACSE Protocol (Extensibility)  
ISO 10035-1/DAM1 ACSE Connectionless Protocol (Authentication and Extensibility)

ISO 8822/DAM2 Presentation Service (Efficiency)  
ISO 8823-1/DAM2 Presentation Protocol (Efficiency)

ISO 8326/DAM2 Session Service (Efficiency)  
ISO 8327-1/DAM2 Session Protocol (Efficiency)

ISO PDTR 14700, OSI Efficiency

ISO DIS 8649 ACSE Service, 3rd Edition  
ISO DIS 8650-1 ACSE Protocol, 3rd Edition  
ISO DIS 10035-1 ACSE Connectionless Protocol, 3rd Edition

3. Since the Munich meeting, ISO have progressed all standards on the list (except 14700) to DIS/DAM ballot. ATN workers have returned positive DAM ballot comments from ANSI, BSI, and AFNOR. All standards and ballot comments are available on request at the Alexandria WG3 meeting.
